

AUTHORISED ECONOMIC OPERATOR (AEO) STATUS

This status is part of the anti-terrorist procedures that the EU and other countries outside the EU have adopted to combat terrorism.

If a supplier of goods wishes to freely import and export, it is essential for the legal entity to attain the status from HMRC.

By achieving this status, a business has proven to the world that **their** supply chain is secure and that the business has taken every precaution to prevent unwanted items or substances being attached to the goods.

For further information please contact RHA. We have AEO experience.
